WHY OUR CLIENTS CHOOSE US:

ARCHAEOLOGY

BEC employs Cultural Resources Specialists with a wide range of backgrounds and specialties. We can provide Cultural Resources Identification Surveys, National Register of Historic Places (NRHP) testing, data recovery, and mitigation services to compliment our environmental services, providing a full range of services to aid clients in their permitting process. BEC's staff can consult with clients to tailor a project to suit their needs, while meeting local, state, and federal regulations.

ARCHITECTURAL SURVEYS AND ASSESSMENTS

BEC can provide HABS/HAER documentation, standing structures assessments, and chain of title/deed research to fulfill state and federal laws (Section 106, NEPA, etc.) and permitting requirements. BEC's staff can also provide historic landscape studies and historic research.

GEOPHYSICAL INVESTIGATIONS AND CEMETERY STUDIES

Our team performs ground penetrating radar and magnetometer studies for clients to help identify cemeteries, foundations, and other buried resources. BEC provides cemetery documentation and recording services. Through the use of historic records and geotechnical investigations, our staff can help research the history of a cemetery and can identify its boundaries.

MANAGEMENT DOCUMENTS

BEC is well versed in the production of Resources Management Plans, Memoranda of Agreements (MOA/MOU), Data Recovery Plans (DRP), and Tribal Agreements (TA). BEC's staff has over 20 years experience in writing management and agreement documents.

NATIONAL REGISTER STUDIES AND NOMINATIONS

BEC's Cultural Resources staff has experience in researching and nominating structures, sites, districts, and features for the NRHP. Likewise, BEC's staff is familiar with state recognition programs such as the State Archaeological Landmark program in Texas.

NATIVE AMERICAN AND SHPO CONSULTATION

BEC can assist in Native American consultation to aid in project development. BEC's staff has experience working with Native American groups throughout the country. Likewise, BEC has significant experience in SHPO and THPO consultation.

GIS MAPPING AND RECORDATION

BEC has the technical knowledge and experience to assist clients with mapping projects and feature recording. If you are in need of a detailed and accurate map, BEC's staff can provide the data and resources. BEC's Cultural Resources Program uses the latest mapping software and GPS hardware to assist with all your needs.
